

## How to Access CBCM Live Streaming Services

1. Go to CBCM website <http://www.cbcm.org>

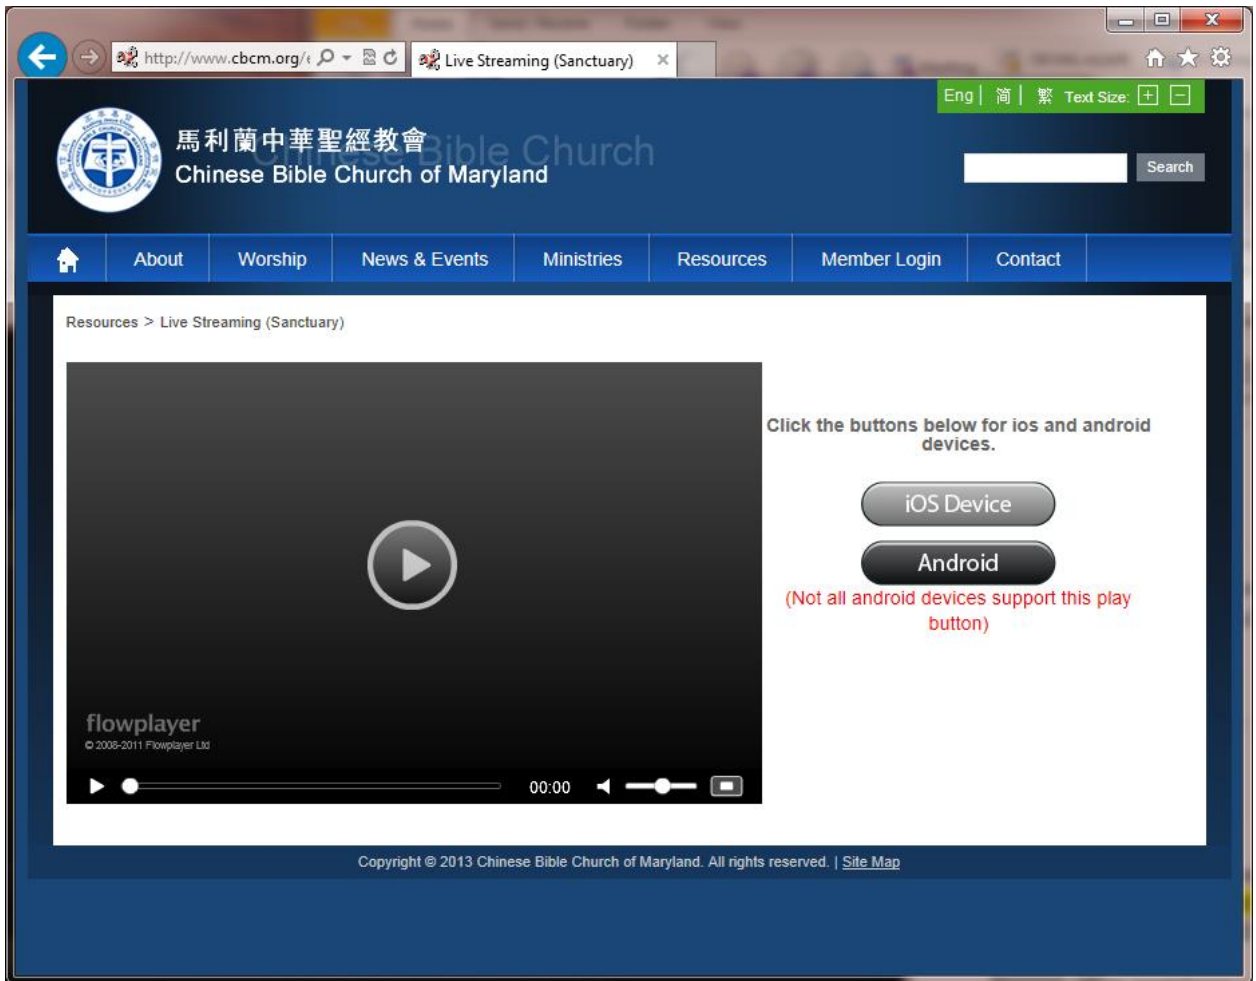

The screenshot shows the homepage of the Chinese Bible Church of Maryland. The browser address bar displays <http://www.cbcm.org/>. The website header includes the church's logo and name in both Chinese (馬利蘭中華聖經教會) and English (Chinese Bible Church of Maryland). A search bar is located in the top right corner. The main navigation menu is located below the header, with the 'Resources' tab selected. A dropdown menu is open under 'Resources', listing options such as 'Find Books', 'Live Streaming (Sanctuary)', 'Live Streaming (Fellowship Hall)', 'Sermons Online', 'Sermons Audio', 'Cross Talk', 'Useful Websites', and 'e-Forms'. To the right of the dropdown menu, there are several buttons: 'I'm new', 'Sermon Online', 'Directions', and 'Read the Bible in a Year'. Below the navigation menu, there is a large banner with the text 'Exalting Jesus Christ', 'Edifying the Believers', and 'Evangelizing the World'. To the left of the banner, there is a section for the Gaithersburg Campus, including contact information and Sunday worship times. Below the banner, there is a 'Church Calendar' section and a 'News & Events' section with a list of recent events. To the right of the 'News & Events' section, there is a 'Member Login' section with a 'Secure Login' button. The footer of the website contains the copyright information: 'Copyright © 2013 Chinese Bible Church of Maryland. All rights reserved. | Site Map'.

2. Select the Live Steaming (Sanctuary) or Live Streaming (Fellowship Hall)

3. If the Live Streaming service is not ready, it will show the schedule. Please try again later.

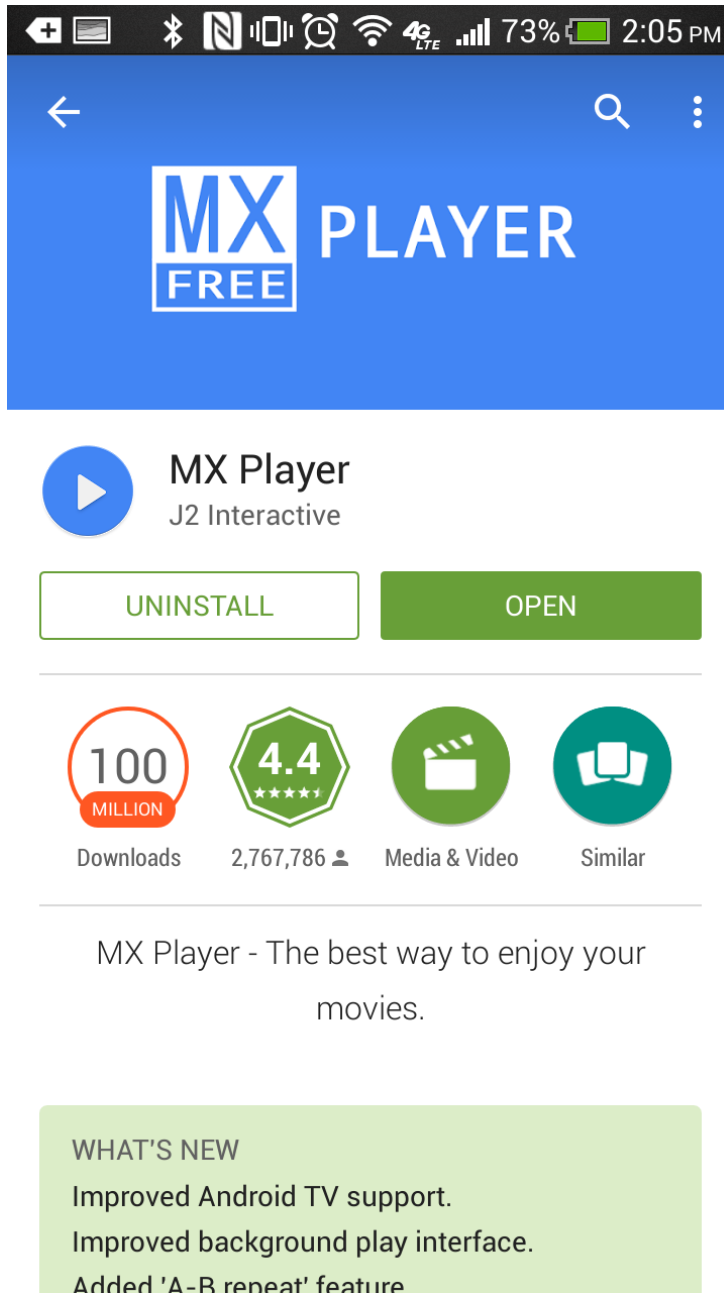

4. If you're using iPhone or iPad, please click the [iOS Device] button to watch the video.

\*\*\* For the Android devices, you can watch the video directly from the web page without clicking the [Android] button.

## How to Setup Android Player to Watch Live Streaming

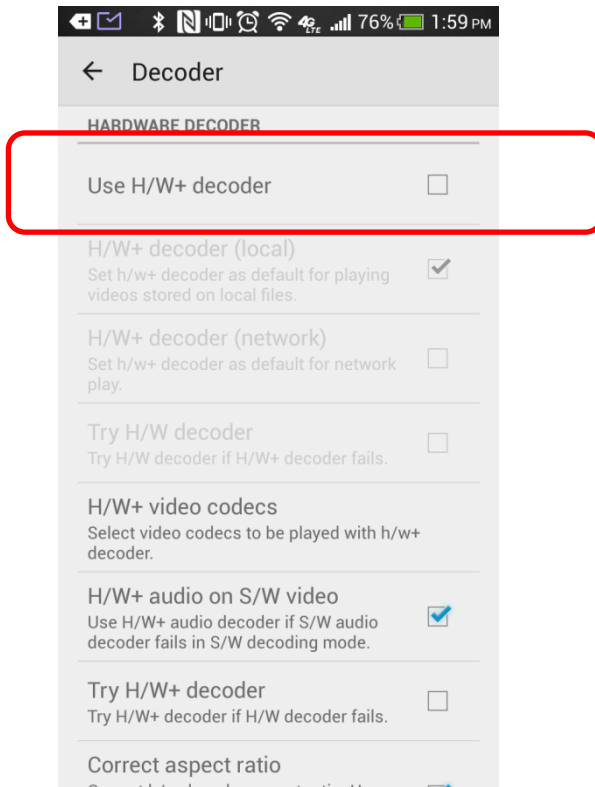

1. Go to Google Play to download "MX Player" and install it.

2. Change Settings.

Menu -> Settings.

Uncheck "Use H/W+ Encode".

3. Now you can use browser to visit Live Streaming page again. Once the system pops up a question to choose player, please choose “MX Player” and then tap [Always].
